

Envisioning the Future of Strawberry Mansion High School

Strawberry Mansion is NOT closing

- We are NOT selling the building.
- Current students can continue and graduate from Strawberry Mansion High School
- Building upgrades to improve energy efficiency and attractiveness are coming this summer

Few students are choosing Strawberry Mansion now

- Only 294 students are going to Strawberry Mansion this year
- The building has room for 1,762 students -- there are 1,468 empty seats
- Less than 50 current 8th graders in the neighborhood will attend Strawberry Mansion in August 2018
- 2,112 students in the neighborhood are going to high schools other than Strawberry Mansion

Hundreds of neighborhood children are going to alternative education programs in other parts of the city

- 250 students in the neighborhood go to accelerated schools outside the neighborhood
- Over 1,000 students in the neighborhood go to a night school program (Educational Options Program) outside the neighborhood

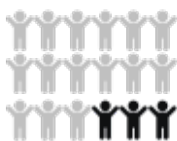

We are adding academic options that neighborhood students want

- Accelerated school at Strawberry Mansion -- *Fall 2018*
- Educational Options Program (EOP) at Strawberry Mansion -- *Fall 2018*
- Project-based learning high school serving grades 9-12 at Strawberry Mansion -- *Fall 2019*
- Workforce development program at Strawberry Mansion -- *Fall 2019*
- Expanded recreational opportunities for the neighborhood developed in conjunction with the community

More students will, once again, choose Strawberry Mansion

- With your support, Strawberry Mansion will become a high school offering arts, workforce development, and accelerated programs that students can attend in their neighborhood

NOW

- 1 high school program
- Too many students choosing to go elsewhere
- Too few students served

FUTURE

- Multiple high school programs available
- Many more students being served with room to grow

 = 100 student seats open

 = 100 student seats filled
